INLAND CHESS ACADEMY'S PROGRAM The Inland Chess Academy's curriculum is built on research proven methods developed by chess masters and educators, and recommended by the United States Chess Federation (USCF). These proven methods are used by many successful chess schools and presented by our trained and experienced coaching staff.

Beginner - Beginners learn and demonstrate the basics of chess play, chess rules, and etiquette.

Intermediate - Students learn algebraic notation, playing with a clock, an understanding of strategies for opening a chess game, major tactical techniques, and basic endgame theory.

Advanced - Students develop advanced competitive strategies including an opening repertoire, positional strategies, tactical combinations, endgame play, and methods of applying sport psychology to their games.

All students gain knowledge of chess history, chess news, and grow their appreciation of chess. Students are encouraged to play in regional and state tournaments for individual and team awards.

WHY CHESS ? Scientific studies prove that professional chess programs enhance academic performance and generally increase overall brain functions, including positive behavior. "Chess is the only activity for our youth where they are expected to sit quietly and think long thoughts." JJ Dill II, Director, Inland Chess Academy
